## BLOODSTOP-spray alginate

CE  
2265

60ml 80

### Stops bleeding

- ◆ is destined to stop capillary and small venous bleeding from topical wounds, such as lacerations, scratches and minor cuts
- ◆ handy packaging and easy application presents a reliable help in most all workplaces, at sports where this inconvenience could occur and should be treated fast and efficiently
- ◆ its haemostatic effect is immediate, the full homeostasis is achieved within 2-3 minutes after application
- ◆ it is fully absorbable, it does not have to be removed from the wound, the risk of recurrent bleeding is thus decreased
- ◆ it is well tolerated by the organism, it supports the biological healing process
- ◆ It causes no adverse immunoreactions, nor sensitization, and could be used by both adults and children

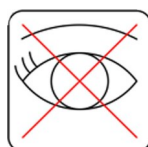

### Bleeding stopper with herbal ingredients, *alginat, hippophae rhamnoides, pot marigold and chamomile*

- ◆ stops minor bleeding
- ◆ A cooling hydrogel is generated
- ◆ Soothes the injured site
- ◆ Helps the healing process

Ref no: 3130

Blood-stop spray alginate, is used to treat small surface injuries. Ingredients: Methylal, Butane, Algin, Proane, Calcium Alginate, Stearalkonium Hectorite, Alcohol Denat., Isobutane, PPG-2 Methyl Ether, Simmondsia Chinensis Seed Oil, Hippophae Rhamnoides Fruit Extract, Aloe Ferox Leaf Extract, Calendula Officinalis Flower Extract, Chamomilla Recutita Fower Extract, Menthol forms a powdery mechanical layer over the injury.

The alginate layer absorbs blood from the site of injury and exudates formed, thus forming a cooling, gel-like mass which supports the healing process. Chinesees seed oil, Aloe Vera support natural hydration of the site of injury and help the healing process.
